REMARKS

Favorable consideration of this application, as presently amended, is respectfully requested.

By the present Preliminary Amendment the specification is amended to correct minor informalities and make minor clarifications.

Further, replacement Figures 4, 5, and 16 are submitted herein.

Replacement Figures 4, 5, and 16 now recite the more clear term "Voltage Raising Ratio Command Value".

The changes made to the specification and in the replacement drawings are not believed to raise any issues of new matter.

Further, by the present Preliminary Amendment claims 1-5 are canceled without prejudice and new claims 6-28 are presented for examination. New claims 6-28 are deemed to be self-evident from the original disclosure, including the original claims, and thus are not deemed to raise any issues of new matter.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully submitted,
